Reimagine Workspace. Redefine Productivity.

Privacy meets collaboration. ERGOPOD lite is designed to fit in any workplace.

Portable Pod.

One of the key USP is that **ERGOPOD lite** is very portable, you can easily dismantle and relocate them in the future, without our help.

We will guide you on how to dismantle and install back the pod during our day of setup or installation. On the other hand, most pods from other brands in Singapore requires the vendor's contractor to dismantle, and relocate for you, resulting in higher future cost.
